

## Opportunities with Admiral Group

### INTERNATIONAL PRICING ANALYST (CARDIFF/SEVILLA)

#### Description

Admiral was launched in January 1993 with just one brand, zero customers and 57 members of staff. The company started from scratch and today has a market capitalisation of over £6 billion and is a member of the FTSE 100.

**It markets motor insurance direct** to individuals in the UK, Spain, Italy, France and the US, and runs a number of insurance comparison websites multi-nationally.

**...but we are not all about Insurance!** You will find Loans, Sharing Economy and New Products teams that will lead our Group into our next success.

Now the Group has 16 brands (8 outside UK), over 4 million customers and 9000 members of staff worldwide. We are **consistently voted among the best places to work in UK and Europe, and are currently ranked number 6 in the Sunday Times 25 best Large Companies to work for.**

As part of our rapidly growing business, graduates at Admiral enjoy fantastic opportunities for career progression as well as our unique employee ownership model which includes a **free share scheme open to all staff.**

This means there is an added incentive to make a difference to the future of our business and make our business your business.

## **Job description: International Pricing Analyst**

There is the opportunity for an exceptional candidate to join the International Pricing Team. This role is very strategic and has the opportunity to make a significant impact on Admiral's profitability.

The Pricing Team pride themselves on doing what's right for our valued customers whilst championing some of the fastest growing and most innovative areas of motor insurance.

Our analysts are given the chance to get involved with everything from running Pricing models using statistical tools, understanding the numbers within those models and ultimately making proposals for potential improvements to the rating structure of our products and other business critical decision making processes.

### **Tasks:**

- Composition, follow-up and evaluation of the customer portfolio
- Definition of our rating structure based on technical indicators
- Competitors Benchmarking and price sensitivity analysis
- Composition of reports

**Reporting to:** International Pricing Manager

**Based in:** Cardiff (UK) for the first 18 months. After this period you would be relocated to the office in Sevilla.

### **About you:**

This is a high profile role within the group, suitable for someone with a long term focus on building a career within Admiral.

We ask for:

- Graduate degree in a mathematics, business administration & management, engineering or related.
- No experience required.
- Fluent Spanish and at least B2 level in English.
- Numerically minded with strong quantitative skills. Logical and common sense minded.
- Can-do attitude and positive mind oriented.
- Great team player as well as reliable. Ability to get on and communicate with colleagues.
- Personality and a sense of humour (we believe work should be fun)

### **Steps**

1. Numerical online test

2. Skype Interview with International Pricing Manager and Executive Recruitment Officer from Cardiff
3. Face to face interview with International Pricing Manager in Sevilla

Good luck!
