

Front-end developer

We are looking for...

A front-end developer to join our team, you will work closely with the development team. We want someone who is motivated by emerging technologies and has a passion to drive digital transformation. A real desire to work in a collaborative and fast-paced environment is essential.

Requirements...

- 1+ years of experience as front-developer
- Proficient in Angular version 2 to 5.
- Good knowledge of Typescript - Javascript, HTML5 and CSS3.
- Knowledge of Nodejs
- Accustomed to work with Protractor and Karma

Valuable:

- Layout experience
- Knowledge of Java, Spring framework, Maven.
- Good written and spoken English
